SUMMARY

Front-end developer and third-year Computer Science student at Damietta University. Builds responsive web interfaces with React.js, Next.js, TypeScript, JavaScript (ES6+) and Tailwind CSS, and integrates REST APIs, authentication and form validation. Built and deployed three full projects: an e-commerce storefront, a social feed and a travel planner. Seeking a front-end developer internship and junior roles.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python

Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Bootstrap, shadcn/ui, React Router, Redux Toolkit, TanStack Query (React Query), React Hook Form, Formik, Zod, Axios

APIs & Data: REST APIs, asynchronous JavaScript (async/await), JWT authentication (NextAuth), Supabase (PostgreSQL, Auth), Firebase (Authentication, Firestore), Next.js Server Actions and Route Handlers

Tools: Git, GitHub, Vercel, ESLint, Figma

Testing: Jest

Concepts: Responsive web design, component-based architecture, data structures, algorithms, OOP, databases, networking

PROJECTS

Bazaro — E-commerce Storefront | Next.js 16, React 19, TypeScript, Tailwind CSS 4, NextAuth, TanStack Query

Live demo: bazaro-market.vercel.app | Code: github.com/Ahmed-Alhossiny/Bazaro

- Built a full storefront with 50+ product cards with product browsing and search, guest cart, and checkout by cash on delivery or by card after sign-in.
- Implemented credentials authentication with NextAuth (JWT sessions) and fetched data with Server Components, Server Actions, Route Handlers and TanStack Query.
- Validated forms with Formik and Zod, and built the interface with Tailwind CSS 4, shadcn/ui and Embla Carousel.

Wisp — Social Feed App | React 19, Vite, React Router 7, Tailwind CSS 4, React Hook Form, Axios

Live demo: wisp-network.vercel.app | Code: github.com/Ahmed-Alhossiny/Wisp

- Built a single-page social app where users share posts, follow friends, and interact through likes, comments, bookmarks and shares.
- Integrated a REST API with Axios, built client-side routing with React Router 7, and validated forms with React Hook Form.

Voyo — Trip Planner | React 19, Vite, React Router 7, Tailwind CSS 4, Supabase, Axios

Live demo: voyo-planner.vercel.app | Code: github.com/Ahmed-Alhossiny/Voyo

- Built a trip-planning app where users search for a country and see local time, currency, languages, public holidays, local events and a live weather forecast.
- Integrated four external REST APIs (country data, Nager.Date, Ticketmaster Discovery, Open-Meteo) using Axios.
- Implemented authentication and a personal "My Plans" dashboard with Supabase (PostgreSQL and Auth), securing each user's data with Row Level Security.

EDUCATION

Damietta University — Faculty of Science | Oct 2024 – May 2028 (Expected)

Bachelor of Science in Computer Science

Relevant coursework: Data Structures, Algorithms, Databases, Object-Oriented Programming, Networking, Logic Design

TRAINING

Front-End Development Program — Route Academy | Feb 2026 – Oct 2026

Six-month program covering HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React, Next.js, Git and GitHub.

LANGUAGES

Arabic: Native | **English:** Professional working proficiency
